- Made from natural renewable resources

Health & Safety

See accompanying Health & Safety Sheets

Delta Grove will remove most types of soiling, even very heavy deposits of oil and grease

Delta Grove is ideal for removing flyposters and most residues from painted and non porous surfaces

Delta Grove can be safely used on almost any surface, even fabrics, carpets and soft furnishings

Delta Grove is made from natural renewable resources

Application

Dilution rates

For light soiling:
Dilute up to 50:1 with water

For general cleaning:
Dilute up to 20:1 with water

For greases, oils and stains:
Dilute up to 10:1 with warm water

For stripping flyposters, glue residues, wax based anti-graffiti coatings, old floor polishes and waxes:
Use diluted 10:1 with hot water

Can be applied by spray, mop, brush, sponge, through pressure washers (hot or cold) or wet vac type floor machines
